

EU Grants

Amendment Guide

EU Funding Programmes 2021-2027

Version 1.1
15 February 2024

IMPORTANT NOTICE

This document is designed to help beneficiaries of EU grants which are managed via the EU Funding & Tenders Portal with their amendment requests, i.e. to list the supporting documents and show how amendment clauses ('AT-clauses') are typically combined.

It covers all types of amendments that are currently supported by the Portal Amendment tool.

Further guidance can be found in Article 39 of the AGA — Annotated Grant Agreement*.

⚠ If you have any doubt, contact us (via your Funding & Tenders Portal account > My Project(s) > Actions > Manage Project > Process communications) before finalising your amendment request.

Other information

For detailed information on how to prepare an amendment, see the Funding & Tenders Portal IT How To wiki.

A comprehensive list of all reference documents (including legislation, work programme and templates) can be found on Funding & Tenders Portal Reference Documents.

Terms are explained in the Funding & Tenders Portal Glossary.

AMENDMENT GUIDE

⚠ This document lists the amendment types (AT-clauses) and shows mandatory combinations and combinations that are often used together (other combinations). Additional combinations may be needed to suit your case.

The list of supporting documents covers required documents for the clause in question AND its mandatory combinations. For those linked to other combinations, see those other clauses.

For any questions related to an amendment request, please contact us immediately (via your Funding & Tenders Portal account > My Project(s) > Actions > Manage Project > Process communications) so that we can see how to solve the problem. Incomplete or incorrect amendment requests will be rejected and will have to be re-submitted (it is not possible to change amendment requests, once signed).

Clauses are implemented as:

1. Automatic (change of system data by Consortium/PO automatically triggers AT-clause)
2. Selected by EU or beneficiary (AT-clause must be selected on the Amendment Information screen by the Consortium/PO)
3. On-demand (AT-clause must be requested from Helpdesk — please contact your Project Officer).

Clauses in grey are open only to the EU (and can therefore NOT be activated by you). Please contact your Project Officer.

For changes linked to errors/mistakes, some standard clauses can be flagged as *Error amendment* type by the EU Officers. Amendment clauses that can be marked as *Error amendment* are listed below. For any other specific circumstances, the general error AT60 clause must be used. Please contact your Project Officer.

After the effective date has passed, the termination can be 'undone' only via a formal amendment request to add the beneficiary back into the grant (AT1) **Mandatory change of coordinator** - In case of termination of the coortinator (by the consortium or by the EU) the amendment request must always be combined with AT11 to appoint a new coordinator. A coordinator change may be needed, even after the end date of the action, if the coordinator is no longer to fulfill its role (e.g. liquidation) and the final payment is not yet paid out. The new coordinator will submit the termination report. **FPA/SGA —** For FPAs, the exit date corresponds to the termination date (there is no separate end of work date).
