1. EVALUATION

⚠ *Applications **must be evaluated as they were submitted**, NOT on their potential if certain changes were made. Therefore, do NOT recommend any modifications (e.g. consortia composition, resources or budget, or inclusion of additional work packages).*

⚠ *If an application is partly out of scope, this should be reflected in the comments.*

1. Excellence

The following aspects will be taken into account, to the extent that the proposed work corresponds to the description in the work programme:

- Excellence of the company: Does the company has the vision and ambition to scale up?
- Novelty and breakthrough character of the innovation: Does the innovation have breakthrough character and a high degree of novelty compared to existing solutions?
- Technology readiness level: Has the innovation reached TRL 5 (i.e. it has been tested in the relevant environment)?
- Timing: Is the timing right for this innovation in terms of market, users, societal or scientific of technological trends and developments?

Comments:

2. Impact

The following aspects will be taken into account, to the extent that the proposed work corresponds to the description in the work programme:

- Competitiveness and demand: Is the innovation better than what the competition proposes, and is the solution bringing sufficient added value to trigger demand from potential customers?
- Market development: Does the innovation have the potential to develop new markets or significantly transform existing ones?

  Broader impact: Will the innovation, if successfully commercialised achieve positive broader societal,

economic, environmental[1] or climate impacts?

Comments:

3. Level of risk, implementation, and need for Union support

The following aspects will be taken into account, to the extent that the proposed work corresponds to the description in the work programme:

- Team: Does the team have the capability and motivation to implement the innovation proposal and bring it to the market? Is there a plan to acquire any critical competencies which are currently missing, including adequate representation of women and men?

Comments:
