C(2025) 6650 final

COMMISSION IMPLEMENTING DECISION

of 6.10.2025

amending Implementing Decision C(2025) 1839 on the financing of the Digital Europe Programme and the adoption of the work programme for 2025-2027

COMMISSION IMPLEMENTING DECISION

of 6.10.2025

amending Implementing Decision C(2025) 1839 on the financing of the Digital Europe Programme and the adoption of the work programme for 2025-2027

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU, Euratom) 2024/2509 of the European Parliament and of the Council of 23 September 2024 on the financial rules applicable to the general budget of the Union[1] ('the Financial Regulation'), and in particular Article 110(1) thereof,

Having regard to Regulation (EU) No 2021/694 of the European Parliament and of the Council of 29 April 2021 establishing the Digital Europe Programme and repealing Decision (EU) 2015/2240[2], and in particular Article 24(6) thereof,

Whereas:

(1) On 28 March 2025 the Commission adopted Implementing Decision C(2025) 1839 on the financing of the Digital Europe Programme and the work programme for 2025 - 2027.

(2) In view of the start of Switzerland's association to the Digital Europe Programme foreseen in 2025, subject to the signature of the agreement on Union programmes, and transitional arrangements in place from 1 January 2025, the budget and planning for the action 'Completion of the initial Network of European Digital Innovation Hubs (EDIHs)' should be amended to allow for possibility of creation of new EDIHs in Switzerland.

(3) In view of Member States' decision not to transfer ERDF funds to the Digital Europe Programme, the planning of the action '2.5.2 Consolidation of the Network of European Digital Innovation Hubs' should be amended.

(4) In order to ensure the successful implementation of the AI Continent Action Plan[3] , and considering the key role that Testing and Experimentation Facilities (TEFs) have in the European AI ecosystem, the planning of the action '2.3.1.1 Testing GenAI4EU applications at scale and under real-world conditions' should be amended.

(5) To support the implementation of the European Connected and Autonomous Vehicle Alliance announced in the Industrial Action Plan for the European Automotive Sector[4], two actions should be added (2.2.2.8. and 2.2.2.9) supporting the creation of a secretariat and an effective collaboration platform for successful and well-coordinated developments and early deployments in the areas of automotive software, hardware, AI and autonomous driving systems.

2 OJ L 166, 11.5.2021, p. 1, ELI: http://data.europa.eu/eli/reg/2021/694/oj
3 COM(2025) 165, adopted on 9 April 2025.
4 COM(2025) 95, adopted on 5 March 2025.

(6) In order to better align action 5.2.3 with the forthcoming Democracy Shield initiative, it should be renamed to ‘Situational Awareness and Operational Centre (SAOC)’. Furthermore, to take into account recent developments important for the field of disinformation, including consultations with relevant stakeholders, the budget of the SAOC should be reallocated for activities already performed by some of the European Digital Media Observatory (EDMO) Hubs by the inclusion of a new work strand under ‘5.2.2 Supporting community approaches to fight disinformation’.

(7) In order to ensure the timely roll-out of EU Digital Identity Wallets in all Member States within the legal deadline, it is necessary to support the development and certification of EU Digital Identity Wallets. A call for proposals targeting the consortia selected in the call from the Digital Europe Work Programme 2023-2024 should therefore be added. To complement this, a contribution agreement should be concluded with ENISA to ensure they have the necessary means to support the development of national certification schemes. In addition, call for proposals should be added to support the implementation of mobile driving licences in the EU Digital Identity Wallets.

(8) In order to support the work of the Housing Task Force, a new procurement action ‘5.1.8 Pan-European Investment Platform for Affordable Housing’ should be added.

(9) In order to enhance data exchange in the tourism sector using the common European data space for tourism and provide opportunities to the industry as well as relevant information for regulators and public authorities alike, as well as cater to the needs of SMEs and micro enterprises, the type of action for the action ‘2.2.1.2 Data Space for Tourism’ should be amended to SME support action.

(10) In view of implementing the EuroHPC Joint Undertaking Decision of the Governing Board of the EuroHPC Joint Undertaking No 41/2024 amending the Joint Undertaking's Work Programme and Budget for the year 2024, budget under this Work Programme should be allocated to the implementation of the activities of the EuroHPC Joint Undertaking.

(11) Implementing Decision C(2025) 1839 should therefore be amended accordingly.

(12) The measures provided for in this Decision are in accordance with the opinion of the Digital Europe Programme Coordination.

HAS DECIDED AS FOLLOWS:

Sole Article

The Annex to Implementing Decision C (2025) 1839 is replaced by the text in the Annex to this Decision.
